

TuNed In to LEARNING[®]

Turning FUN into FUNctional Educational Outcomes

Capture your students' attention and lock in core concepts through an engaging combination of inventive songs, movement, and vibrant visual supports. Designed by an Autism Specialist and Music Therapist, this music-assisted learning curriculum is tailored to the needs of children and teens with autism, developmental disabilities, and neurologic impairments. Watch your students shine as they role play and practice each skill with the added benefit of additional response time, simplified song lyrics, and slower paced instructions!

Learn-Along Books

**Full Color Visuals
Lesson Plans
IEP Objectives
Adaptations
Instructor's Guide**

Music CD's
