

Spooky Sounds: A Halloween Chant

Conjure up a musical spell using your own instruments or the suggested instruments below from www.westmusic.com. Help your students create spooky sound effects while you chant along:

Tell me, tell me, what do you hear?
I hear _____ OH DEAR!

I hear a skeleton...

I hear the wind howling...

I hear some footsteps...

I hear a cat scratching...

I hear a chain rattling...

I hear a door creaking...

Instruments shown starting in upper left include seed rattle, thunder tube, claves, cabasa, tambourine, and ratchet. For more musical mayhem visit us at www.coastmusictherapy.com
